

Pulmonary Fibrosis Support Group

Join patients and caregivers from across the state as we share information and advice about pulmonary fibrosis. Guest speaker Dr. Timothy Whelan, Professor in the Division of Pulmonary, Critical Care, Allergy, & Sleep Medicine at MUSC, will give an introduction to pulmonary fibrosis and touch on current research. Time will also be allotted for an open forum to allow for fellow patients and caregivers to interact and share their experiences.

UPCOMING EVENT:

Featured Topic: Introduction to Pulmonary Fibrosis & Current Research

September 23, 2019 | 2 - 4 pm

Ashley River Tower, Room 1119

25 Courtenay Drive, Charleston, SC
