

DO YOU OR A LOVED ONE HAVE IDIOPATHIC PULMONARY FIBROSIS (IPF)?

LEARN HOW YOU MAY IMPROVE YOUR QUALITY OF LIFE AT A FREE SEMINAR

IPF Interactive Virtual Seminar

Idiopathic pulmonary fibrosis (IPF), characterized by scarring in the lungs, is a progressive and irreversible disease. However, this free seminar provides patients, caregivers and family members with information on the latest treatments and research that may help IPF patients breathe easier. Topics include:

- What is IPF?
- Pulmonary Rehabilitation, Oxygen and Symptom Management
- Research and Clinical Trials
- Lung Transplant
- Support and Palliative Care

**During lunch break: Living with IPF during COVID-19*

TEMPLE HEALTH

Temple Health refers to the health, education and research activities carried out by the affiliates of Temple University Health System (TUHS) and by the Lewis Katz School of Medicine at Temple University. TUHS neither provides nor controls the provision of health care. All health care is provided by its member organizations or independent health care providers affiliated with TUHS member organizations. Each TUHS member organization is owned and operated pursuant to its governing documents.

Non-discrimination notice:

It is the policy of Temple University Hospital, Inc., that there shall be no exclusion from, or participation in, and no one denied the benefits of, the delivery of quality medical care on the basis of race, ethnicity, religion, sexual orientation, gender, gender identity/expression, disability, age, ancestry, color, national origin, physical ability, level of education, or source of payment.
